Andy Warhol and the Union Jack in New York City

If I were to again walk into Ireland's 32 I might tell you a little about it if you had not been there before. I might even quote a Conspiracy Theory site about British Influence *Entrepid* style operation in the USA as a British method of tilting balances of politics in countries to gain influence into.

I might also tell you Andy Warhol like many had secret ties to English aristocracy, had FOXP2, and knew the story of himself and the story of Marilyn Monroe he pained and a few other stories about a Kingdom of 1,000 years that held fast in its finest hour the Battle of Britain. You might even call a one thousand year empire with OSS operatives called the Jed who work in small groups, two or more, and carry axes all fear. In that foreigner stuff M is 1,000 here Kingdom.

Brigid Emmett Berlin (September 6, 1939 – July 17, 2020), also known as Brigid Polk, was an American artist and Warhol superstar. Berlin was born on September 6, 1939, in Manhattan in New York City. She was the eldest of three daughters born to socialite parents, Muriel (Johnson) "Honey" Berlin and Richard E. Berlin. Her father was chairman of the Hearst media empire for 32 years.- Wikipedia

Many had both public and private allegiances to British or Irish history and Andy Warhol and Monroe were among them and I think Monroe later with JFK separated from that.

An overtly imperialist Hearst Family and its manager Richard Berlin supported colonialism in Latin America with J.P. Morgan and others and in 1960 backed V.P. Nixon who ran imperialism under Eisenhower over JFK. JFK won. Eventually Nixon would become President and August 8, 1974 resigned after being impeached by Hosue of Representative and caught in the Watergate burglary. It may related back to the JFK assassination. The Checkers Speech may have been Hearst in the background getting Nixon into the V.P. position under Eisenhower. It was this early 1970's period Patty Hearst converted to a voluntary SLA member. after speing time with Warhol and Jed Johnson at Interviews Magazine. #TWA 800 and UAL 553 could cover this up.

Empires by Andy Warhol is screened to show the Empire State building standing tall in New York overseeing the world for 8 Hours and 4 Minutes and it turns out that was the Queen Mother's birthday. August 4.

Curiously not only did Jen Jonson die on TWA flight 800 at about the same time Sonny Bono died and someone from the early days of Andy Warhol and Interviews Magazine was a witness. Micheal L. Kennedy died about that time too Inglewood California and the Batle of Britain and the P-51 appear to be part of that story.

Timing of Deaths

- **TWA 800**: 230 Deaths *July 17, 1996* Jed Johnson Interviews Magazine on board. Piere Salinger suspected the plane was destroyed by a missle. Ed Donegan and others assert the plane was brought down by a combination of flares and fuel system sabotage avoiding the more obvious missle flight and damage. Interviews had CIA MK-ultra history through Patty Hearst and others. - **Chauncey Marvin Holt**: *June 28, 1997*. In a 1991 Newsweek article about Oliver Stone's JFK, Holt received national attention for various claims he made regarding the assassination of President Kennedy. The public allegations of Holt were well known and feared by conspirators. In 1997 he released supporting documents as his long struggle with cancer had brought to only days away from his death. This is simlar to the E. Howard Hunt deathbed confession. But who alive would be able to verify Holt's expected story?

- **Sonny Bobo:** *January 5, 1998*

Dear Dick,

I found, awaiting me here upon our return from Spain, a package delivered by the safe hand of Pursor Moreno of S.S."UNITED STATES". I lost no time unpacking it and was quite overcome to find that it contained four boxes of Laranaga Cetros clarisimos bearing your card.

I cannot thank you enough for such a wonderful and welcome present. These cigars are my favorites and my appreciation of your kind and generous thought of me, knows no bounds.

The Duchess and I are glad you and Honey had a nice summer. The weather was lousy here July and August around Paris, but we found it really warm and sunny on the Costa del Sol. We spent a few days in Madrid on our way back, and were invited to a party where we had the pleasure of seeing your friends, the Fieros again.

We plan to spend the winter here, except maybe for another trip to Spain after New Year's. Then, we look forward to going to America in the late Spring and to seeing you and Honey again. One can only hope that the "New Frontiersmen" will not have completely wrecked the economy by then.

Thanking you again for the wonderful cigars and with the Duchess' and my love to you both,

Sincerely Your's

Richard E.Berlin

Jed Johnson (December 30, 1948 - July 17, 1996) was an American interior designer and film director. The New York Times hailed Johnson as "one of the most celebrated interior designers of our time."

Initially hired as a janitor at artist Andy Warhol's Factory, Johnson moved in with Warhol after he was shot to help him recuperate, and they subsequently had a romantic relationship for 12 years.[2] Johnson rose through the ranks at The Factory from assisting director Paul Morrissey to directing a film on his own. He edited several films, including Trash (1970), Heat (1972), and Blood for Dracula (1974), and he directed the film Bad (1977) before starting a decorating business. Johnson was a member of the Andy Warhol Art Authentication Board following Warhol's death.

Johnson was known for his signature American Empire style when decorating. His clients included Mick Jagger, Pierre Bergé, Yves Saint Laurent, and Barbra Streisand. Johnson had become one of the most acclaimed interior designers when he was killed in a plane crash aboard TWA Flight 800 in 1996.[3] He was posthumously inducted into the Interior Design Hall of Fame and Architectural Digest named him as one of "The World's 20 Greatest Designers of All Time."

The Andy Warhol Art Authentication Board, Inc. was a private corporation that certified the authenticity of works by the artist, Andy Warhol, from 1995 to 2012.

The organization was created in 1995 in association with The Andy Warhol Foundation for the Visual Arts.

The Board, based in New York City, consisted of six members, including art historians, curators and those who personally knew Warhol and his work. Board members included Warhol's studio manager Vincent Fremont, Warhol's former lover, interior designer Jed Johnson, art curator David Whitney, and Warhol experts George Frei, Neil Printz, and Sally King-Nero.[2][3] After Johnson was killed in 1996, he was replaced by art historian Robert Rosenblum.

The four-year NTSB investigation of TWA Flight 800 concluded with the approval of the Aircraft Accident Report on August 23, 2000, ending the most extensive, complex, and costly air disaster investigation in U.S. history at that time.[7][8] The report's conclusion was that the probable cause of the accident was the explosion of flammable fuel vapors in the center fuel tank. This was part of the reason a heat seeking missile was discounted as theory but adds into the theory of fuel tank spillage and a canvass suitcase full of Semtex.

TWA Flight 800 had a passenger connected to the inside story of MK-Ultra and Nixon and Executive Action. That person was Jed Johnson. That flight was delayed for rewiring, a passenger and baggage mismatch, and disabling due to false positives fuel overflow computer. PETN and RDX were found on carpet fiber and canvass and I suggest the suitcase may have dispersed explosive into the atmosphere to be ignited by flares and that would ignite leaking wind fuel top. The Air Conditioner system may be such as to push passenger consumer breathable air into the outdoors of the fuselage as more oxygenated air is introduced to the pressurized cabin.

The importance of the 1950's and Anti-Communism led by William Randolph Hearst in his castle are important. George Hearst moved to California to profit from the Gold Rush in California and worldwide and tied himself in with the richest of global world industrialist like J.P. Morgan and backed Congressman Nixon who created the CIA and worked the the Marshall Plan then implemented it under the NSC as V.P. After that Hearst backed V.P. Nixon over Senator Kennedy but Kennedy won. In that time frame Patty Heart and Brigid Berlin were artists under Andy Warhol and Jed Johnson taking on and talking about that history as insiders. Patty Hearst resentful of the wealth gained from exploitation of colonies would after the explosion of reporting and cover-ups related to Nixon, J. Edgar Hoover, and the CIA including with King Edward VIII operating in Bermuda with the CIA to control Guatemala and British-American subversion and overthrow will take up after the deceased Che. Although man CIA documents have been destroyed about the CIA activities, many exist and are redacted, or released to little fanfare by Chauncey Holt. What differed with Jed Johnson and Warhol and Patty Hearst and Brigid Berlin was the

oral history in their families and family letters conserved by them and the inside story living as their memories and memorabilia if you can call Hearst Castle memorabilia.

There are 35 Provinces of Ireland which contain 32 Counties

Leinster.	Connacht.	Ulster.	Munster.

> The Fifth Province is a study of contemporary Ireland through the eyes of the returned emigrant. This set of images is intertwined between Ireland's nationalist past, it's European future and it's American imagination. Ireland is made up of four provinces; the fifth is where the Irish diaspora resides.

County Donegal of Ulster Province (The Troubles and Belfast also) is a largely Irish-speaking region bordering the Atlantic Ocean in northwestern Ireland. It's made up of castles, rugged coastline and mountains such as the quartzite Mount Errigal. Glenveagh National Park, once a private estate, encompasses forests, lakes and bogland in the Derryveagh Mountains.
